When you become a member of PFLAG national, you receive communications directly from them. You also become an official PTC member, with part of your membership fee kept locally to pay our chapter costs such as registering with the state, purchasing educational materials, supporting our library, and local advocacy and outreach. Being a PFLAG chapter gives us many opportunities for networking with others in our state and country, as well as the support of PFLAG National. We are under their nonprofit "umbrella" and have access to their materials and receive guidance from their staff. We also reap benefits from their lobbying efforts and informational and training resources.
